## Education

### RICIS

Bachelor of Computer Application Aug, 2022 – Aug, 2025

## Technical Skills

JavaScript, Python, Java, Redux, HTML5, CSS, Tailwind CSS, User Interface, Bootstrap,C, React.js,Node.js,Express.js , MongoDB, MySql.

## Soft Skills

Collaboration, Problem-solving, Communication, Time management, Result-oriented

## Additional Skills

Public Speaking, Writing, Research

## Languages

English, Hindi, Bengali

## Certifications

- Certified Web Professional-Web Developer
- Javascript Development Certified

## Summary

Hi, I'm Priyanshu Burman, a passionate tech enthusiast and aspiring developer currently pursuing a BCA degree. With a strong foundation in HTML, CSS, JavaScript, React, and Redux, I specialize in frontend development and have hands-on experience building dynamic web applications. Currently, I am expanding my skills in backend development using Node.js, exploring how to create robust and scalable server-side applications. Beyond coding, I'm an avid learner, always looking to enhance my skills and contribute to impactful projects.

## Projects

### NewsApp || [Demo](#)

The News App is a React-based web application deployed on Vercel. It fetches real-time news from an API, allowing users to view articles by category (e.g., sports, technology). With a responsive, clean design, the app provides a smooth user experience.

Category-based Filtering: Users can filter news articles by categories (e.g., sports, technology, business), improving the user experience by allowing them to focus on topics of interest.

Clean and Simple UI: The app features a clean, minimalist user interface, which enhances readability and user interaction with the news content.

Real-time News Fetching: The app integrates with a news API to fetch the latest news articles dynamically, ensuring that users get up-to-date information.

### E-com Ui || [Demo](#)

The E-commerce UI Clone is a responsive and visually appealing user interface designed for an online shopping platform. It showcases modern UI/UX design elements, featuring a clean layout, intuitive navigation, and attractive product displays. Built with React.js, this project emphasizes smooth interactivity and user-friendly design, making it a great prototype for an e-commerce website.

### Laundry Page|| [Demo](#)

The Lundry Page is a sleek and responsive web application designed for managing laundry service.it features an intuitive user interface with modern design elements to enhance user experience.
