Carrer Objective

Passionate and detail-oriented frontend developer with strong knowledge of HTML, CSS, JavaScript, and React.js. Seeking an internship or junior developer role where I can contribute to real-world projects, collaborate with industry professionals, and grow into a proficient developer while adding value to the organization.

Projects

E-commerce UI 🔗

E-commerce responsive ui using React , Aos , and Tailwind css

Built a responsive and modern e-commerce website UI using **HTML, CSS**, and **Tailwind CSS**.

- Designed multiple sections: navigation bar, product listings, banners, and footer.
- Ensured mobile responsiveness and clean layout using Tailwind's utility-first classes.
- Focused on pixel-perfect design to replicate a professional e-commerce user interface.
- Deployed the project using **Vercel**.
- GitHub: https://github.com/Ankit123-burman 🔗

Online Code Compiler with React & Monaco Editor 🔗

Developed a browser-based code editor and compiler using React.js and Monaco Editor (the editor behind VS Code).

- Integrated **Monaco Editor** for syntax highlighting, code editing, and better developer experience.
- Enabled users to write, edit, and execute code snippets in real time.
- Built with **React Hooks** like useState and useEffect for state management and functionality.
- Implemented responsive layout and clean UI for seamless coding experience across devices.
- Deployed the project using **Vercel**. 🔗

News App with React & News API

Developed a dynamic and responsive news application using React.js and the News API.

- Fetched and displayed real-time news articles based on categories like business, technology, sports, etc.
- Utilized **React Router** for multi-page navigation and **Axios/fetch** for API integration.
- Used useState and useEffect hooks for efficient state management and data rendering.
- Implemented loading spinners and error handling for better user experience.
- Responsive design optimized for desktop and mobile devices.
- Deployed on **Vercel** for fast and reliable access. 🔗
